Walpurgis Night: Volume One 1919 - 1933 (Volume 1) Thomas Sheridan

Did you know that Hitler feared a dormant demonic force residing inside the moon which he believed somehow created and controlled human destiny? In *Walpurgis Night: Volume One*, Thomas Sheridan known for his work on psychopathology, mass hysteria and social engineering, for the first time tackles a historical subject using these concepts as a framework in which to re-examine the rise of the Nazi cult and its legacy. Sheridan's research goes beyond the occult development of the Nazis by delving into the repressed Teutonic Häxan psyche. Examining everything from the movies of the era, to the political factions of 1919 who were invoking their own demons of death and destruction. The book takes into account every aspect of the Nazi occult from Fascination (eye magic), to word spells, to the sex magic rituals of the Third Reich. You will never see history in the same way ever again, and you'll be left wondering if indeed their Black-Häxan magic is still at work today. (includes illustrations)
