## **Weaving the Web of Life** Mrs Blayne Bates

We are all light energy with colours in our aura representing the stages we are at in our lives. We are the only ones who create blockages which stop the flow of new happenings in our lives. If we stubbornly never change our attitudes, and constantly change our physical lives then we can't get out of our way for the universe to allow us to grow and evolve. We all need more colour and energies to flow through our homes in order to awaken and invigorate us to become a lighter, more authentic human being. Realising what a gift this life is when we embrace the beauty and wonder of everything and everyone we encounter. Instead of living the life we all are supposed to live we need to step out and do and be what feels good and right for us. If people and places make you feel uncomfortable go with your gut feelings and gravitate to where and with whom you can be your genuine self. When we realise the worries we created, we can more easily trust our gut instinct which along with our bodies never lie! We over-analyse ourselves and others too much, we need to just let things be. We should give others the time to listen to their woes however there are always solutions and they're the only ones responsible for choosing. This world is full of wonderful choices once we remove the "but". We come into this world with the intention of releasing emotional baggage which we insist on accumulating. Once done, we have the pleasure of expressing self worth, value and love which instead of being emotional is the whole and soul way of being.
