Internet Primer for Information Professionals (Supplements to Computers in Libraries) Elizabeth Lane, Elizabeth L. Lawley, Lawley

This volume provides a description of the current state of the internet, as well as the interim and proposed NREN, and includes basic information on network concepts and usage. In addition to providing background information on the state of the "national network", it addresses selected "how-to" issues ranging from necessary equipment to operating system specifics. By collecting the best of available information and using documentation principles designed for effective communication of technical concepts, this text aims to provide a one-stop source for all librarians and educators beginning to access the internet.
