Alice, Carla and Tess are about to embark on a historic expedition to the outer reaches of the galaxy. Piloting a new and experimental space craft that can reach speeds previously only dreamed about, the three female astronauts are standing on the precipice of greatness.

But when something goes wrong with the ship's engines, it catapults the women into a distant region of space and a galaxy populated by hung, sexually enlightened alien species. And all of them are women. The journey takes the explorers from a vast interspecies space station, to the fringes of known space, and to a planet entirely devoted entirely to pleasure. For the eager astronauts, it is a trip they might never want to end. It is sure to be a wild ride.

This book contains all five volumes of the Futa Space series, and involves futanari-on-female scenes.
