**What's Language Got to Do with it? [Instructor's Edition]** Keith and Michal Brody Walters

From the Preface: "What's Language Got to Do with It? represents our best effort to create a reader about language that will engage students on multiple levels, helping them think critically and analytically about the language that is all around them and through which they construct their identities as individuals and as members of groups of all kinds. Few things give us greater pleasure than seeing students become excited about language, helping them investigate the many roles it plays in their lives and the lives of those they love, and learning from them as they teach us about their understanding of language and how it functions from their perspective. The topics and texts we've included here come from our own teaching. We are both sociolinguists and teachers of writing, with training in rhetoric and a strong anthropological bent, seeking to understand how humans use language as tool and symbol. We are convinced that every course can and should be a writing course, a fact reflected in how we've designed this book, especially in thinking about possible writing assignments." . . . 585 pages, followed by 85 pages of Instructor's Guide.
