## **James Hong SAT Critical Reading Game** James Hong

The first book in the SAT GAME series. In this book, James reveals his long-kept Critical Reading secrets. This book uses multiple approaches to boost your score including: • A 'Moneyball' Approach: every technique in the book increases the odds of you getting a question right and reduces the odds of you getting a question wrong. When these changes are added up, the total increase in score is substantial. • An Anticipatory Book: this book knows how you think! James has worked with thousands of students over the years he and can pretty much guarantee that he's worked with a student just like you in the past. Since this book reflects his experiences, it'll often show you a mistake even before you make it. This focused advice ensures you're getting the information you want as you need it! • A General and Soldier all in one: you're going to transform into an SAT-taking super-soldier! Most other SAT test-prep guides only focus on certain parts of the exam. James takes a more holistic approach that connects small scale attacking strategies (e.g. correct Answer Choice selection) with larger scale guidelines (e.g. effective time management). This comprehensive approach to all SAT Critical Reading elements means you're going to be equipped for virtually any eventuality that the Critical Reading section can throw at you! • Tricks and Techniques drawn from REAL SAT questions: throughout the book you'll encounter questions from The Official SAT Study Guide, so you can practice the techniques in the book with real SAT questions.
