**The Banker's Dilemma: She promised him Paris in the spring** Roman Klee

**A down and out investment banker, who grew up believing that second best doesn't cut it, embarks on a painful journey of self-discovery. To survive, he must restore meaning and purpose to his life.**

With one failed career and one failed marriage behind him, ex-Wall Streeter Nathan DeAngelis, is in full mid-life crisis mode. All alone in a NYC walk-up, drunk, depressed and feeling suicidal, he tries to make sense of where his life went wrong.

Desperate to make his money and personal problems disappear for good, he's on the brink of taking the final solution, when a mystery caller literally offers him a lifeline.

He lands a job at the secretive Banderbilt Trust company, where the partners' Rolodexes look like they're populated with the descendants of Croesus. And Nathan's good fortune continues when he meets Carla—her father just happens to be the world's most famous investor.

Honed on Wall Street, his instincts for spotting a short cut to riches immediately kick in. He fantasizes about having a serious relationship with Carla, so that with a single stroke of her elegant Mont-Blanc pen, all his money problems would disappear in an instant.

But what at first looks like a series of lucky breaks, disguises more sinister and twisted motives. While working at the Trust, Nathan uncovers a criminal money making game. Designed by Wall Street's brightest minds, it uses a special kind of financial instrument (a L.A.Y.D.E.E.), enabling investors to play with other people's lives—and only in a very bad way.

In the world of the super-rich, where more is never enough, where addicts of every variety search for higher highs, nothing can beat making money, nice 'n' easy—even when it involves a plot to assassinate the world's most famous investor.

Nathan eventually realizes he's been manipulated and deceived.

**He now faces a race against time to stop the dark forces of finance from making a killing.**

*Because someone's in the crosshairs of an assassin's rifle. Nathan thinks he knows the name of the target, the time and place of the hit.*

*Wall Street thinks it knows of a way to profit. But if Nathan gets his timing right, he can solve the Banker's Dilemma and win his heart's desire.*
