The Time for Love: Now! L.A. Zoe

In 2187, Marile Historian-1 just wants her Ph.D. She plans to earn her degree by traveling back in time to study Milton Carver, an Afro-American and the greatest physicist of all time. The History Department's professors worry she inadvertently changes the past. The department's head already knows she and Carver share a love that could instead change the future. 2187 a paradise? Thanks to the physics discoveries of Milton Carver in the early 21st century, energy costs nothing. Historians travel back in the past to study historical events. No war, no hunger, no hardships. Nobody suffers from relationship problems. The government assigns everybody a sex partner, and, via virtual reality, guarantees everybody four orgasms per session. Marile likes her assigned sexual partner, and the guaranteed four orgasms she enjoys with him, but feels something missing from her life. She wonders what happens in the past when men and women must find pleasure with each other as they wanted - when they fall in love. How could that happen? Could she dare to fall in love with a man - on her own. In this futuristic, science fiction time travel romance novel, the woman going back in time to find true love begins in our future, and thinks of our period as the past.
