Einstein, Me and the G.O.D. " the grand original design" Kenneth R Stauffer PhD

I wrote this book to first show how a learning disability, such as dyslexia, can effect creative thinking. Since Einstein displayed a learning disability in his early years, many modern educators believe he had dyslexia. Secondly, I wrote this book to show how I, as a diagnosed dyslexic, have similar thought processes as Einstein, even if it is at a different level. Thirdly, I try to show how I use modern theories (i.e. quantum theory and M theory) to explain current mysteries of theoretical physics. I do not or cannot use higher math for these findings. I simply rely on "end results" of theoretical physics for my base. Einstein said he was a poor mathematician, but compared to him I fall way short! The conclusions that I draw from current theories leads me to postulate and theorize about: dark matter, dark energy, super-symmetry, the eleven dimensions of space-time, the unification of forces, the spin of particles, electron orbital's, eternity, the theory of everything (TOE), beginning and end of the universe, plus I introduce a new particle,--- The Space-Time-Energy-Particle (STEP). I postulate that quantum theory (and as Einstein believed) is incomplete and "what can happen-will happen" is only true if STEPs entangled with quantum theory allow these happenings to take place. This is THE NEW REALITY. I in no way think that I could tie Einstein's shoe laces. My thoughts are based on his view of quantum theory etc. Everything that I have postulated in this book may not bear fruit, but just maybe the underlying concepts will. A paradigm shift away from atheistic theoretical physics concepts to a more deity-agnostic or spiritual approach is needed. The only way a synchronized STEP arrangement of the universe is possible, is if our Creator designed it, since a statistical random approach would not be possible. Each synchronized movement of any of the 10^{183} STEPs in our observable universe is not random. It is by choice! Great minds like Howard Georgi, Leonard Susskind, Anthony Lisi Garrett, Lee Smolin, Stephen Hawking, Lisa Randall, Edward Witten, Anton Zelinger Michio Kaku, etc. are excellent candidates to explore my STEP approach to the Grand Original Design, G.O.D. Some of these scientist are atheists, some are not, but if we all keep an open mind, much will be accomplished. Oprah Winfrey and her spiritual peers, such as Gary Zukav, Deepak Chopra and Paulo Coelho etc., are excellent candidates to critically review spiritual concepts developed from my Grand Original Design (G.O.D.) Theory of Everything (T.O.E.). The phrase "When you want something, the whole world will help you" written by Paulo Coelho in his book, "The Alchemists" is supported by STEP synchronization. It might just turn out that the synchronization of STEPs is the mechanism of how the whole world can help you. The Observable Universe (OU) is to Eternity as Finite is to Infinity and Finite/Atheist is to Spiritualism/Eternity. The OU is Finite and Eternity is Infinite. The transition from live to dead is the transformation from a finite life back to our infinite eternal being. Atheists do not believe this transformation and hold their beliefs in the finite. The finite of infinity is a wonderfully place, but it is not the end. The universe was created so Souls could make choices. Currently Islamic Terrorists Religious Wars and racial Prejudice are very poor choices, while the pursuit for liberty, justice and knowledge are good noble choices. The subconscious of the OU is the synchronizations of the STEPs and the consciousness of the OU is Mother Nature. The subconscious of a human is its soul and consciousness is making choices.
