Andrea Lee

Sarah Phillips: A Novel Andrea Lee

In the words of its title character, this novel is set in "the hermetic world of the old-fashioned black bourgeoisie--a group largely unknown to other Americans, which has carried on with cautious pomp for years in eastern cities and suburbs, using its considerable funds to attempt poignant imitations of high society, acting with genuine gallantry in the struggle for civil rights, and finally producing a generation of children educated in newly integrated schools and impatient to escape the outworn rituals of their parents."
