THE ADULT WEBMASTER'S COMPLETE GUIDE TO MEDIA SELLING & BUYING: ACTUAL INFORMATION FROM BACKSTAGE OF ADULT INDUSTRY! ADULT MEDIA GUIDE

Welcome to the Adult Webmaster's Complete Guide to Media Selling & Buying Part 1! My name is Markul and I have been building different platforms in the adult industry since 2007. I have bought and sold traffic well into the seven figures and I decided to write this guide, to not only help others prosper but also help the industry grow.

Do not be mistaken, you will meet many people in this industry that says, "Porn is dead!" It is not. Not even close to dead or heading there. Those people just have the wrong mindset. They are not looking ahead they are looking back. They are not behaving like executives.

This used to be an industry of amateurs, which was able to make a lot of money from their mom's basement doing not a whole lot. Those days are over. The real players in this industry are real executives that knows how to operate in an ever-changing market.

This guide is for both new and experienced webmasters. The more experienced readers will want to skip some sections, while the less experienced should read it all.

Please remember that while all of this certainly works for me, different things works for different reasons. So if you are not seeing results as fast as expected or if you nothing something is not working for you – try something else and keep trying. It is almost impossible to make any form of guarantees in this world other than the fact that prices will rise, that taxes suck and that we all grow old – but I will promise you this: If you put in the hours, are persistent and willing to track, reflect and learn from your mistakes you will make it!

When I started out, I spent two-three hours every evening. I had a full time job that had nothing to do with this. Now I this is my full time job and I love it. I have the freedom to do whatever I want. I have a solid team of people that works for me around the globe. We all work from our homes. If I do not want to work, I will still be making money. It does not matter where I am or what I am doing... I am still making money. How is that possible? Well that is what I aim to show you in this guide!

The beauty of the internet is that you do not always need to be there to open the door for the customer and server them, our machines will do that and you can focus on withdrawing your money from the automated teller machines.

However, let us not get ahead of ourselves because I kid you not, if you w are free to do whatever you please with your time and still make lots of m time. A LOT of time. Never give up. Never surrender and never ever, spen you get them.

In the first many months, I was taking almost all the income I made and p operation. Now if you have a company or not, that is a different talk – yo one for the first 6-12 months. Most countries allow you to operate witho registration number the first year's and then your accountant can deal with your operations. Nevertheless, check the rules in your country please.

The reason you want to reinvest the money is that you want to grow. Growth is the key to success in

almost every single industry. You need to grow, in order to grow you need more or bigger websites, more servers, more traffic, more sales, more advertising and more people.

Now I am not saying that you should not enjoy yourself, please do! All work and no play can break most people, but know that if you reinvest at least 50% of your income in your operation for the first 6-12 months, you will be able to reach your goal MUCH faster than if you party all the time.

Speaking of partying. There are some rules that I highly recommend you follow:

Keep your dick in your pants or you will not get anything done.

Make to do lists and get the things on them done.

If it takes less than 2 minutes to do... Do it! (It is called the 2 min rule, look it up).

Read all of this guide, seriously, print it, read it, use it as a reference but do not just skim it.

Maintain your focus, keep wo
