Clinical Chemistry: A Laboratory Perspective Wendy L. Arneson MS MT(ASCP), Jean M. Brickell EdD MS MT(ASCP)

Meet the learning needs of today's students with a brand-new style of textbook—designed to excite your students' interest in clinical chemistry! Organized almost entirely around organ systems—to parallel the way physicians order tests—this groundbreaking text teaches the concepts and principles of clinical chemistry through realistic situations and scenarios. By integrating pathophysiology, biochemistry, and analytical chemistry for each major system, students clearly see the relevance of what they are learning to their future careers. This practical approach encourages them how to apply theoretical principles in the laboratory and to develop important critical-thinking skills.
