How to Draw Caricatures Jonathon Roberts

From the Forward... "In the writing and illustrating of this book the aim has been to produce a comprehensive and concise treatise on the art of caricaturing. It has been made as brief as is consistent with clearness and completeness.

Although the text is brief, no illustrations were spared. The many images illustrate all points necessary, and each of the points illustrated are explained in the text with reference to that particular illustration. In addition to the images there are many caricatures of famous men, from days gone by, included.

If you obtain half as much pleasure and profit from the use of this book as was derived from writing, and especially illustrating it, I shall consider my time well spent."
