The Computer as an Educational Tool D Lamont Johnson

Tells you everything you need to know about computer tools in education--their nature, their use in the schools until now, and their future. Actual programs are discussed and explained, and their effectiveness and applications are revealed. Specialists in education and computers detail the use of word processors and writers, spreadsheets, data managers and project what these applications may mean for enhanced educational programs. Educators at all grade levels, as well as colleges and universities with teacher training programs, will find great value in this exciting and thought-provoking volume.
