The Evaluation of Appropriateness of OMB Circular A-76 Studies on Revenue-Generating Functions in Defense Working Capital Fund Activities Thomas J. Moreau

This is a NAVAL POSTGRADUATE SCHOOL MONTEREY CA GRADUATE SCHOOL OF BUSINESS AND PUBLICPOLICY report procured by the Pentagon and made available for public release. It has been reproduced in the best form available to the Pentagon. It is not spiral-bound, but rather assembled with Velobinding in a soft, white linen cover. The Storming Media report number is A571114. The abstract provided by the Pentagon follows: This thesis addresses the appropriateness of applying an OMB Circular A-76 study process on the revenue generating functions in Defense Working Capital Bund activities. While the thesis acknowledges that subjecting organizational functions to an A-76 process gains competitive efficiencies, the hypothesis is that a Working Capital Bund activity has already realized the efficiencies by competing for business; therefore, a process other than A-76 is more appropriate to gain further cost savings. The thesis examines the specific example of the Navy Supply Information Systems Activity (NAVSISA), which is a Fee-for-Service organization that specializes in providing informational technology products and services for U.S. Navy, DoD and Foreign Allies.
