The unfit hero, Kode Payne, has decided to accept his fate as a villain, so he challenges thousands of gladiators that seek revenge. After blood is shed and many have journeyed to the otherworld, Kode admits defeat to his humanity until a strange doppelganger appears from thin air. With his enemies on the run and plenty of free time on his hands, Kode accepts a disciple and trains the young girl to become a murderer. Instead of reading her mind, he keeps a watchful eye on Bailey while attempting to avoid losing his heart to her. Kode now has the HATS in his possession and a powerful sidekick. No further motivation is required for his path of destruction. The only questions are, how many people will be hurt in this process and will Helios finally get what he deserves?
