Infinite Value 4 Students: Learn how a worthless loser learned to embrace his INFINITE VALUE both inside and out of the Classroom Taiwan Holmes

After repeated beatings, which started when I was in Kindergarten, I learned two certainties in life: I was worthless and I was unlovable. These beliefs permeated every aspect of my life from my family, to the classroom, and on to the basketball court. It followed me beyond school into my professional life, and even my new family, I became BLIND to the value that was in me, and the value that I could truly add to the world around me. Jim Rohn said, "It is more important to work harder on yourself, than you do on your job." IV4S reveals my journey as I worked to shine a light through the blindness of my value both inside and out of the classroom. The journey has uncovered one of the greatest truths the world has ever known. First and foremost, I am INFINITELY VALUABLE. The second discovery is the fact that there is an INFINITE amount of VALUE that I can add to the world around me. As a student and professional, I believed that my value was conditional. If I did well on a test, my value increased by 1 point. But if I had a bad basketball game, it decreased by 1,378 points. In a professional setting, you are only as good as your last sale or accomplishment. Fortunately, my journey revealed the reality that my value isn't conditional or static, but it is accumulating. As humans, we are the summation of all of our life experiences. It is that ever increasing minute by minute, second by second total that ultimately calculates your True Market Value. Once I was able to correctly calculate my Inherent Value, I was then able to more clearly decide what type of value that I would like to add to the marketplace and society. During my blindness, I could only see the value that I could add to someone else's company, through telling their story. The journey you are about to read is the First revelation of the Infinite amount of Value that I will add to the marketplace through telling my story and sharing my talents. When you choose to read this book in its entirety, I promise you that you will have a mirror to see both your Inherent Value and the Value that you will be able to add to the world around you. (Spoiler Alert: They are Both INFINITE!). You will be provided with tools and resources that I didn't have when I was a kid and student that will aid you uncovering your True Value even sooner. (It took me over 30 years). I could tell you to read this book to benefit yourself, but that would be too finite. You should read this book for the thousands upon thousands of people that your life will add Value to once you do. Another important reality that I learned on this journey is "It's not ONLY about me!" If it was only about me, then the tough times that I went through would really suck (not that it didn't hurt at the time, because it did). There are lives that I will be able to add value to, because I went through my beatings. And that is why I write. There are thousands of lives around this planet right now that are waiting to be helped by your experiences. My journey can show you a path to be able to reach the people you are supposed to add your INFINITE VALUE to.
