**The Hour of Terror: Twelve Tales of the Witching Hour (The Hour Collection Book 1)** Pamela Moorman

This book was written for teen/YA but can be read by adults and younger children. It is considered easy reading.

The Hour of Terror consists of twelve tales of the witching hour, known as midnight to us mere mortals. There is a thirteenth tale just for Halloween fanatics, which is my gift to you, \*\*Note to parents, the thirteenth tale may not be appropriate for younger children as it contains graphic violence.

These stories are not considered terrifying although there are a few adult situations. The stories are just somewhat creepy with a lesson or two about bad behavior, which can get you into some frightening situations. Since fear comes in many forms, there is a wide variety of stories included. What may seem scary to some may be considered mundane to others.

Evil supernatural villains such as ghosts, werewolves, demons, and a few nasty humans make an occasional appearance.

All the stories have one thing in common they all take place at midnight or the witching hour as some people call it. When most people are safe in their beds sound asleep. This is when even the most mundane takes on a whole new face. It becomes the face of terror from the very things that might not bother you during the day.

A great time to read this is when you can't sleep and the hour is nearing midnight...or is it?
