The Impeachment of President Andrew Johnson was the biggest affair in the United States during Reconstruction. The President was being tried on charges for breaking the Tenure of Office Act by removing Secretary of War Edwin M. Stanton from office and replacing him with Adjutant General Lorenzo Thomas. Vice President Andrew Johnson had succeeded to the presidency on April 15, 1865 after the assassination of Abraham Lincoln. His succession to the presidency had a negative impact on the country which led to major controversies between Johnson and the Radical Republicans. Edwin M. Stanton, Thaddeus Stevens and Benjamin F. Butler were the three most suspicious of the President and would usually meet with each other along with other Radicals at Stanton's office or Stevens' home to plan Johnson's impeachment. This is the true story of one of the most dramatic and historical events in United States history. Andrew Johnson was the first president to ever be impeached, and he was acquitted by just one vote. The deciding vote was cast by the Republican Senator Edmund G. Ross, who later went on to write this book explaining the events leading to Johnson's impeachment as well as the full story behind his historic decision. This is a must read for everyone interested in American history, as well as an important document illuminating the inner workings of the political system.
