China's Agriculture at the Cross Roads

China's Agriculture at the Cross Roads

China now faces the difficult choice of whether to pursue a food self-sufficiency policy or further integrate its agriculture into the world market. China's choice will have profound implications for the world trading system, as well as for its own economy. At the same time, China needs to reform its land tenure and grain marketing systems. This book examines these majority policy issues using up-to-date information and empirical evidence.
