Connect the Process of Problem Solving with the Content of the Common Core

Mathematics educators have long worked to help students develop problem-solving skills. More recently, they have searched for the best ways to provide their students with the knowledge found in the Common Core State Standards (CCSS). This volume is one in a series from NCTM that equips classroom teachers with targeted, highly effective problems for achieving both goals at once.

The 38 problems and tasks for students in this book are organized into the major areas of the Common Core for grades 3 5:

operations and algebraic thinking

number and operations in base ten

fractions

measurements and data

geometry

For each task, teachers will find a rich, engaging problem or set of problems to use as a lesson starting point, with accompanying discussions that tie the tasks to specific Common Core domains and clusters. Follow-up sections highlight the CCSS Standards for Mathematical Practice students will engage in as they work on these problems.

This book provides teachers of students in grades 3 5 with dozens of problems to use as is, adapt for their classrooms, or be inspired by while creating related problems. For every mathematics educator, the books in this series will help to illuminate a crucial link between problem solving and the Common Core State Standards.

From reader reviews:

John Hickman:

The event that you get from Implementing the CCSSM through Problem Solving, Grades 3-5 could be the more deep you searching the information that hide inside words the more you get enthusiastic about reading it. It does not mean that this book is hard to recognise but Implementing the CCSSM through Problem Solving, Grades 3-5 giving you buzz feeling of reading. The copy writer conveys their point in a number of way that can be understood through anyone who read the item because the author of this book is well-known enough. That book also makes your current vocabulary increase well. It is therefore easy to understand then can go with you, both in printed or e-book style are available. We recommend you for having this specific Implementing the CCSSM through Problem Solving, Grades 3-5 instantly.

Douglas Stevens:

The actual book Implementing the CCSSM through Problem Solving, Grades 3-5 has a lot of information on it. So when you read this book you can get a lot of help. The book was compiled by the very famous author. Tom makes some research before write this book. This kind of book very easy to read you can obtain the point easily after looking over this book.

Loren Parker:

Do you have something that you enjoy such as book? The e-book lovers usually prefer to opt for book like comic, small story and the biggest one is novel. Now, why not seeking Implementing the CCSSM through Problem Solving, Grades 3-5 that give your fun preference will be satisfied by means of reading this book. Reading behavior all over the world can be said as the way for people to know world better then how they react towards the world. It can't be explained constantly that reading addiction only for the geeky individual but for all of you who wants to be success person. So , for all of you who want to start reading as your good habit, you can pick Implementing the CCSSM through Problem Solving, Grades 3-5 become your own starter.

Annette Spafford:

What is your hobby? Have you heard that will question when you got college students? We believe that that query was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. So you know that little person such as reading or as reading become their hobby. You have to know that reading is very important and also book as to be the point. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You see good news or update concerning something by book. Amount types of books that can you go onto be your object. One of them is Implementing the CCSSM through Problem Solving, Grades 3-5.
