## **Killing God - A dark story of real life.**

We never know when it will begin. When will that first piece of information arrive that tells us that maybe this world is not as it seems. Some of us prefer not to look, not to question, hesitant at scratching away at the surface for fear of what we might find. But I was never like that, always inquisitive, always challenging convention, because something deep inside of me called out and said something is wrong with this world. Its voice was persistent and constantly goading that some of the things they have taught us just don't seem to add up. So I set out on this journey of education, and yes I won awards, and yes the reviews came flooding in. But behind the laughter and the acclaim was a different story. One of deceit, betrayal, and self-destruction. One that I have run away from and feared facing until now. But it has now become clear to me that sometimes to seek absolution we must first open up our own wounds and display them to the world. Only then can we be released from the grip of fear and pain that holds us all back. Killing God is that story.
