They're running for their lives...

After surviving the zombie apocalypse for two years, Tye LeBow never expected to be saved from a hungry gang of zombies by a geek with a bad attitude and a penchant for explosives. Tye can't quite work out why scientist Polly Parker saved him. She doesn't want his protection, and she certainly doesn't want his company. But Tye has no intention of leaving the beguiling geek behind.

Polly doesn't want to leave her home, but when the wakers begin to show signs of a burgeoning intelligence, heading south is the only option. With a car packed full of homemade explosives, and Tye's very large axe, they are ready for the road trip of their lives.

Bombs and blades aren't the only keys to survival—they'll need to rely on each other, in a way that neither could have imagined...
